

# Ready Study Go

Elementary Programs (K-6)

# Homework Assistance Program (HAP)

*all around support to help students succeed in school*

In the homework assistance program, students receive all-around academic support. Your child's tutor will help them complete homework assignments, reteach confusing concepts from class, prepare for tests, and teach them the studying and organizational skills needed to succeed in school.

Students work in small groups of 3-4 students with consistent tutors who get to know them and their learning style. Consistent tutors & small groups means students get individualized attention that meets them where they're at and helps them improve week by week.

**This program is the best choice if your child struggles with daily homework assignments or needs general support in all areas.**

## Key Benefits

- small groups of 3-4 students
- consistent tutors who know your student and their learning style
- assistance with homework
- confusing topics re-taught
- focus on building student success skills: studying, organization, time management, prioritization
- fosters independence & self motivation

# Subject Tutoring Program (STP)

*in-depth learning to catch-up or get ahead*

In the subject tutoring program, students receive in-depth tutoring in a specific subject. Your child will receive a diagnostic test to determine their unique strengths and needs. Using these results, we identify your child's academic goals and develop a strategic learning plan to help them develop and grow.

Working from a strategic learning plan means every session is targeted towards specific skills and topics where your child needs to improve. To complete a learning goal, students must demonstrate true concept mastery. This is different from many programs where students are said to have learned a topic if they've merely finished the workbook.

**This program is the best choice if your child needs help in a specific subject or is looking to get ahead or prepare for testing.**

## Key Benefits

- private & semi-private groups
- consistent tutor who know your student and their learning goals
- Diagnostic Testing identifies your child's unique strengths and areas in need of growth
- each child has a custom Strategic Learning Plan that identifies their learning goals and the steps to get there
- students progress through learning goals by demonstrating concept mastery - not just finishing a workbook

# Focus on Foundations Classes (FOF)

*classes in foundational skills for reading, writing, and math*

Through our Focus on Foundations classes, students learn the key standards in math, reading and writing needed to build a strong foundation that leads to long-term academic success. Classes are divided into 4 levels each representing a different ability level and key focus. Students take an entrance diagnostic to place them into the correct class for their current skill level. As students progress, they can test up at any point.

By focusing on foundational skills, students spend time mastering the most vital skills in each subject. This ensures that students can catch-up more quickly and understand what's being taught in their regular classes. For students who are already at grade-level, students can quickly advance well beyond their grade level.

**This program is the best choice if your child needs to catch-up from learning gaps, or wants to get ahead.**

## Key Benefits

- small classes of 6-8 students
- consistent teacher each trimester
- in-depth learning at a lower cost
- leveled instruction based on ability rather than age
- students progress through levels at their own pace
- lessons help students master foundational knowledge so they can better succeed in class
- classes allow students to quickly advance beyond their grade level

# Pricing

## Temporary Cleaning Fee Charges:

The district is charging us massive monthly cleaning fees to reopen at the schools. The fees would prohibit us from being able to reopen, so we are in the unfortunate position of having to pass some of this along. We will stop charging this the moment the fees are lifted. Thank you so much for your support as we work to get back on-site for you.

**Monthly Cleaning Fee per family (on-site locations only):**  
\$45/month
